Within months he was already performing in café's, weddings and an occasional party. In the Winter of 1993 he was watching a Garth Brooks Live at Texas Stadium show on television and at that moment he knew, that was what he wanted to do. In 1998 Jason's first song writing job came when he landed a contract with General Motors to write songs for safety videos which would be distributed all over the world.

A few short months later he also was chosen to write the theme song for the Respect Diversity Foundation which was featured on Oprah. In 1999 Jason was accepted to Belmont University in Nashville for a music Business, but the same month he was supposed to tour the campus he had the rare opportunity through a close friend to go out on the road with Nashville recording artist Ty England. That weekend Jason landed a job working for Ty and his plans changed. Jason has toured with Artist such as Hank Williams Jr., Lone Star, Blake Shelton, Willie Nelson, and Cross Canadian Ragweed, Tracy Byrd, etc.

Jason has also spent many months on the road working with concert promoters putting on concerts throughout the country.

Recently Jason has worked for Nashville Recording Artist Chad Brock and Cledus T Judd.
